# EUROSYSTEM ELIGIBILITY CRITERIA TO CONVERGE WITH THE TRANSPARENCY REQUIREMENTS UNDER THE EU SECURITISATION REGULATION

On 22 March 2019, the European Central Bank announced that the **“transparency requirements of the EU Securitisation Regulation will be incorporated into the Eurosystem collateral framework”** \*

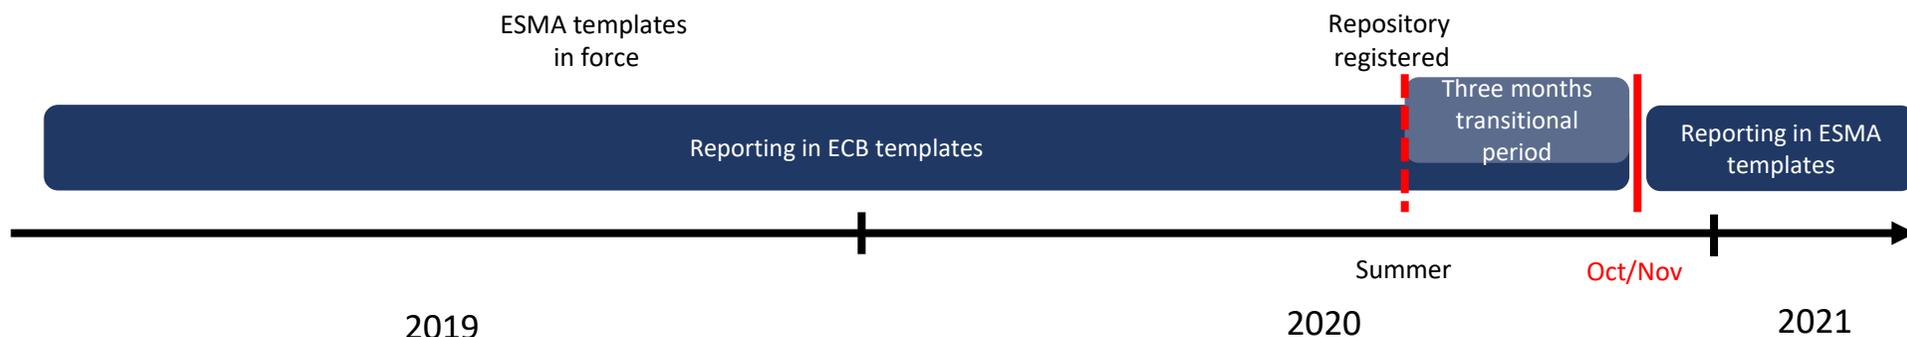

As part of this, the ECB has decided the following:

- The eligibility requirements for loan-level data reporting in the Eurosystem collateral framework will be adjusted to reflect EU Securitisation Regulation’s disclosure requirements
- The eligibility criteria for asset-backed securities will change at a future date, subject to the following two conditions being met:
  1. The ESMA templates adopted by the European Commission must have entered into force
  2. At least one securitisation repository must have been registered by ESMA
- The phasing-in of the new loan-level data requirements will be gradual

\* The ECB press release can be found at the following link: <https://www.ecb.europa.eu/press/pr/date/2019/html/ecb.pr190322~1fdcdd3c43.en.html>

# EBA STS FRAMEWORK FOR SYNTHETIC SECURITISATION

**9 October 2019**

On 9<sup>th</sup> October 2019 EBA announced a two-month public consultation on a proposal for a simple, transparent and standardised (STS) framework for synthetic securitisations.

According to EBA, STS synthetic products could create a number of benefits for the financial markets as well as the broader real economy.

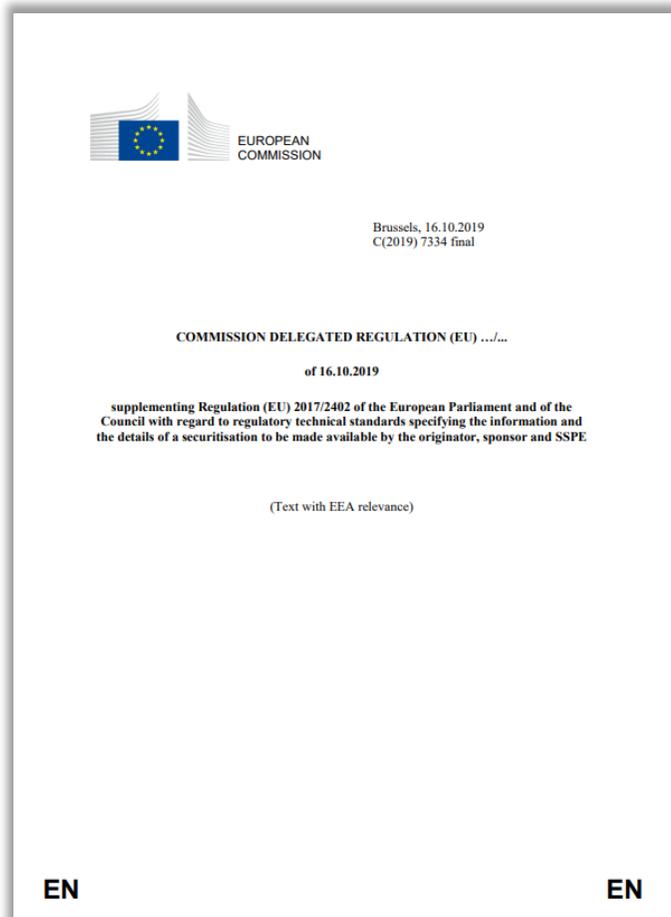

Comments to this consultation can be sent to EBA by 25<sup>th</sup> November 2019. Thereafter EBA aims to publish a final report in 2020. Based on the findings of the EBA final report, the European Commission shall submit a report to the European Parliament and the European Council, together with a legislative proposal, if deemed appropriate.

# EUROPEAN COMMISSION PUBLISHED THE ITS ON DISCLOSURE

29 October 2019

Home > Law > Securitisation - Regulation 2017/2402 > Amending and supplementary acts > Implementing and delegated acts

## Implementing and delegated acts

Find links to implementing and delegated acts for Regulation 2017/2402 on securitisation.

The **securitisation regulation** empowers the Commission to adopt delegated and implementing acts to specify how competent authorities and market participants shall comply with the obligations laid down in the regulation.

### Latest

**29 October 2019**

- [Commission implementing regulation laying down implementing technical standards with regard to the format and standardised templates for making available the information and details of a securitisation by the originator, sponsor and SSPE](#)
- [Annex to the Commission implementing regulation laying down implementing technical standards with regard to the format and standardised templates for making available the information and details of a securitisation by the originator, sponsor and SSPE](#)

**Disclaimer:** Please note that the publication of this Commission Implementing Regulation is for information purposes only and without any legal effect.

The implementing technical standard will only enter into force after its publication in the Official Journal that will happen together with the Delegated Regulation supplementing Regulation (EU) 2017/2402 of the European Parliament and of the Council with regard to regulatory technical standards specifying the information and the details of a securitisation to be made available by the originator, sponsor and SSPE, due to the close interlinkage in content of the two Acts.

# ESMA RECENTLY PUBLISHED UPDATED Q&As

**15 November 2019**

On 15<sup>th</sup> November 2019, ESMA published an updated set of Q&A addressing questions on the disclosure technical standards and providing clarifications relating to STS notification and securitisation repositories.

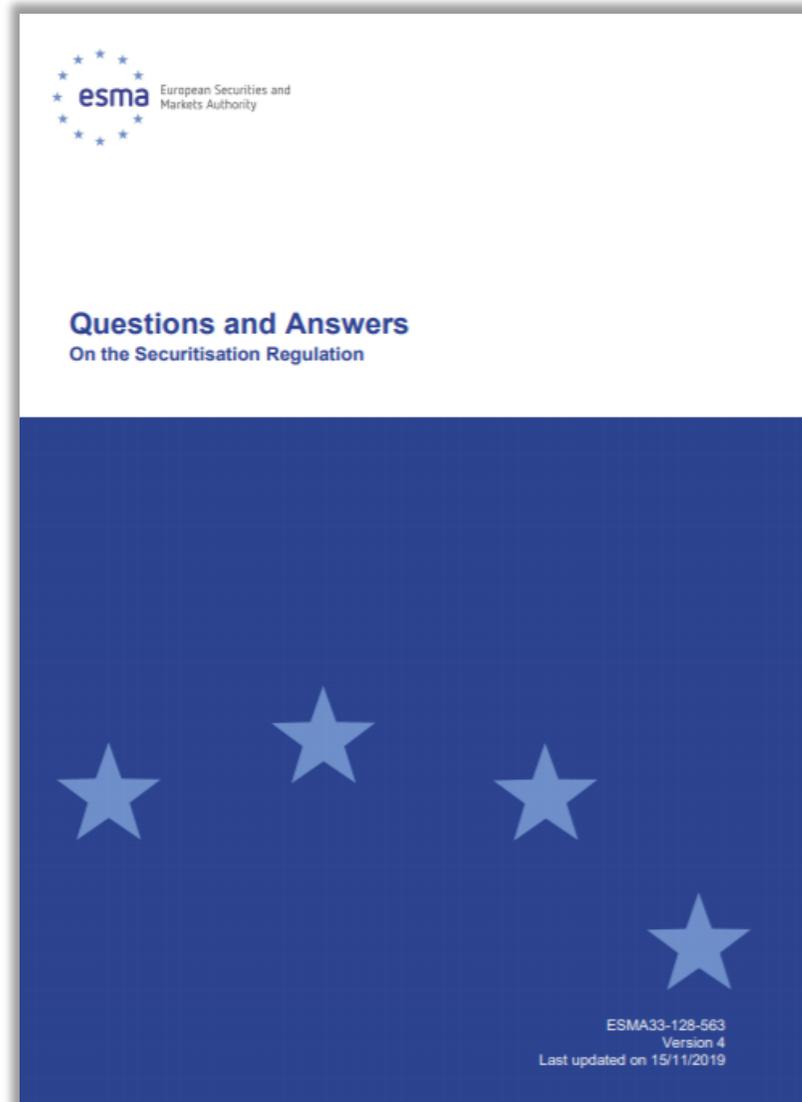

The Q&A cover technical issues on how to report certain information and provide further clarification on template fields to market participants on how to comply with the RTS/ITS

ESMA intends to continue to update this document on a regular basis.

Example of updated Q&As:

- Cashflow information section: Further information has been added, including an example of how a waterfall should be reported (Annex 12/13).

# LESSON 2 RECAP: PREPARING THE XML

## PREPARING THE XML – THE STRUCTURE

- Each Regulatory Reporting XML Messages has 2 parts
  - The **Business Application Header (BAH)**, containing the From, To, Identifiers and Related Message details
  - The actual **XML data templates** sent from the Reporting Entity (RE) to Securitisation Repository (SR) or a **Feedback Status Advice XML** sent from SR to RE
- The Business File Header is a simple XML file that encapsulates the BAH and the Reporting message/Status Advice message.

```
<AppHdr xmlns="urn:iso:std:iso:20022:tech:xsd:head.001.001.01">
  <Fr[...]>
  <To[...]>
  <BizMsgIdr>BizMsgIdr1</BizMsgIdr>
  <MsgDefIdr>MsgDefIdr1</MsgDefIdr>
  <CreDt>1900-01-01T01:01:01+05:30</CreDt>
  <Rltd[...]>
</AppHdr>
```

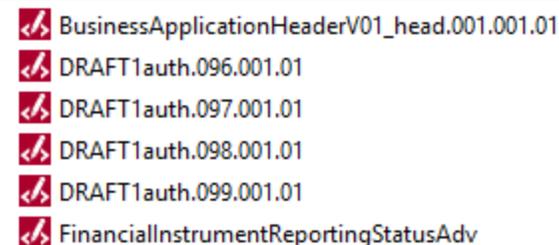

**BAH**

```
<Document xmlns="urn:esma:xsd:DRAFT1auth.099.001.01" xmlns:scrtstn="urn:esma:xsd:DRAFT1auth.099.001.01">

Data  
Template**

# PREPARING THE XML – THE CONTENT

- I. BAH Contents
  - I. **From & To** (i.e. the Org Names, Org Ids, etc.). ED will define the Org ID for every issuer.
  - II. **Business Message Identifier** – a unique identifier for this particular message instance, as defined by the Reporting Entity (RE)
  - III. **Message Definition Identifier** - The identifier of relevant ISO 20022 message **(TBC)**
  - IV. **Creation Date**
  - V. **Related** – Related BAH of the original message when the SR responds with feedback
  
- II. XML Data Templates ( sent from RE to SR )
  - I. Non-ABCP Underlying Exposure
  - II. Non-ABCP Significant Event (Mandatory) & Inv. Report (Optional)
  - III. ABCP Underlying Exposure
  - IV. ABCP Significant Event (Mandatory) & Inv. Report (Optional)
  
- III. XML Data Template ( sent from SR to RE )
  - I. Status Advice / Feedback

-  BusinessApplicationHeaderV01\_head.001.001.01
-  DRAFT1auth.096.001.01
-  DRAFT1auth.097.001.01

# LESSON 3: THE INTRICACIES OF DEAL CREATION AND DATA UPLOADING

# HOW TO CREATE A DEAL

**EDITOR** Dashboard Deals Tickets **What's new?** Multiple Upload **CREATE**

## Create Deal

**Basic Information**

**Deal Name** ⓘ

**Deal Type** ⓘ

**Asset Class** ⓘ

**Vintage** ⓘ

**Data templates you intend to upload (both now and in future):**  
**CAUTION: This change cannot be undone!**

- ESMA XML Templates, subject to data format and schema checks (in future, once they are in effect).
- ECB / CRA III Loan Level Data Template, subject to data format and schema checks [e.g. for ECB Eligibility, STS transitional period reporting, etc.]
- Documentation [e.g. Prospectus, Investor Reports, BoE data tapes without schema checks, STS Transitional period reporting, etc.]

**Please be aware**

- Fill in all fields unless otherwise indicated.
- If you have any questions, please do not hesitate to contact us at: [enquiries@eurodw.eu](mailto:enquiries@eurodw.eu)

**We accept data for the following reporting requirements:**

- ECB Eligibility Reporting
- The securitisation regulation by reporting to our compliant website pursuant to Article 7(2)
- Other private data exchanges / reporting

**Data Templates that you can use:**

- ✗ ESMA [Auto Loans] Underlying Exposure Template (Sample)
- ✓ ECB [Auto ABS] Loan Level Data Template (Sample)
- ✓ Any public or private documentation (e.g. Excel, PDF, Word, etc.). These will not be subject to schema / content format checks

**Who can see your data:**

- All users under Article 17(1) of the STS Regulation registered with European DataWarehouse (e.g. investors, regulators) and other Data Users registered with European DataWarehouse

1. To create a new deal, please click "Create". The relevant fields will be automatically displayed subject to the "Deal Type" selected.

### Please note:

- It is possible to create one deal for all reporting requirements. Manage both ECB Eligibility Reporting and Securitisation Regulation Compliance from one place.
- In the Production Environment it is not yet possible to upload ESMA XML/CSV Templates. However, we suggest ticking the checkbox of ESMA Reporting.
- Only users with the Data Owner role have the authorisation to create new deals.
- Once the reporting purposes are selected, it cannot be undone by editing the deal.

## Please note:

- **The Marketing Flag** is a feature implemented in EDITOR in order to meet the market demand for uploading provisional data files and other relevant documents into the platform for all public ABS deals during their marketing period.
- A deal can be marked as “Provisional” to indicate that the deal is in marketing period and has not yet been priced/closed. Relevant Terms & Conditions can be uploaded for such deals and need to be accepted by Data Users prior to downloading the LLD submissions or documents made during the marketing period.
- Provisional deals can be switched to non-provisional at a later stage (once the deal is priced/closed). **However, a non-provisional deal cannot be switched to provisional.**
- Provisional submissions remain visible after a provisional deal is switched to non-provisional.
- All such deals in the marketing period are identified with an orange flag ■

EDITOR enables users to create private deals. This flag indicates the deal is private, i.e. it is only visible to Data Users specified by the Deal Creator.

In order to create a private deal, please select it as **private** and enter the users (email addresses) and organisations in the visible list. A semicolon (;) should be inserted between multiple users or multiple organisations.

## Please note:

- **Only the Deal Creator** can edit a private deal e.g. change ISINs, update deal status or invite users/organisations for private access.
- Private deals can be switched to public and all private submissions can remain as private (not visible) or visible to data users while the LLD file inherits the status of the deal. **Note: a deal is created as public deal, it is not possible to be switched to private.**
- Once an **existing user** is added, the user will receive access without further approval. Once a **non-existing user** is added, the user will receive an invitation to complete the registration process prior to having access to this deal.
- **It is not possible** to add a non-registered organisation. In order to add an organisation, the complete organisation name should be entered, otherwise an error will be displayed. In this case contact ED at [enquiries@eurodw.eu](mailto:enquiries@eurodw.eu). After the organisation is added, only the users with special permissions will be able to view the deal and add other users within the same organisation.

# SUBMIT LOAN LEVEL DATA (LLD)

1. In order to upload the LLD files, please select the deal
2. Click "ECB Template"
3. Click "UPLOAD AND PUBLISH" to immediately publish the LLD file **OR** click "UPLOAD" in order to view failed rules prior to publishing
4. Browse or drop the compressed LLD file and the signature file generated by ED Digital Signature Utility, click "Upload"
5. "Multiple Upload" is possible by selecting deals one by one.

### **Please note:**

Currently, the submission of LLD is only possible in the ECB template format. ESMA format will also be available in the future .

### **The supported formats for LLD files and signature files are:**

Signature files:  
 CSV: **.tar.gz.asc** AND **.zip.asc**  
 XML: **.xml.gz.asc**  
 Excel: **.zip.asc**

LLD files:  
 CSV: **.tar.gz** AND **.zip**  
 XML: **.xml.gz**  
 Excel: **.zip**

 Yes  No

**Document Information Required**

**Pool Cut-off Date:**

**Upload New Document(s)**

• 15049: Invalid File Name.

**Please note:**

- **Signature File is not mandatory for Document Upload**
- The types of Underlying Exposures, Investor Reports, Inside Information and Significant Events request also the Pool Cut-off Date in the file name with the below format, otherwise an error will be displayed indicating “Invalid File Name”.
- **FileName\_YYYY-MM-DD**  
 YYYY-MM-DD refers to the pool cut-off date (PCD). For example the file name of the investor report could be **Investor Report\_2019-10-15.pdf**  
 The PCD is supposed to be in line with the PCD in the LLD file
