

A NEW ERA OF EFFICIENCY AND SECURITY IN DEAL DOCUMENTATION HOSTING

European DataWarehouse (EDW) is a Securitisation Repository designated by both the European Securities and Markets Authority (ESMA) and the Financial Conduct Authority (FCA). In addition to providing core regulatory reporting technology for issuers and data solutions for investors to undertake their required due diligence activities, EDW is now providing the structured finance industry with a new era of efficiency and security in deal documentation hosting.

Introducing DealDox

In response to the evolving needs of the structured finance industry, EDW has developed a bespoke virtual data room solution tailored to the needs of the market. Crafted with meticulous attention to detail and informed by years of expertise in data management, this specialised offering promises to elevate your document management experience, offering unparalleled features and benefits.

At the heart of DealDox is a commitment to efficiency and security. Building upon the success of our flagship product, EDITOR, EDW has meticulously designed a platform that streamlines the document management process while upholding the highest standards of data protection.
